ABOUT ME

Frontend Engineer with 5+ years of professional experience building and maintaining production web applications. Experienced across Vue/Nuxt, React/Next.js, REST API integration, responsive UI development, and cross-functional collaboration with product and backend teams. Also experienced in web and mobile development using Ionic, Flutter, and Laravel. Actively exploring AI-assisted software engineering, including UI implementation, page slicing, E2E testing workflows, and AI-assisted development of production-oriented web applications.

PROFESSIONAL EXPERIENCE

PT Heksa Adhitek Wayatama (Front End Developer · Full Time · June 2021 – Present)

- Build and maintain responsive web applications across multiple production platforms using Vue.js and Nuxt.js.
- Over the last two years, expanded responsibilities into full-stack development for internal business applications, building both frontend interfaces and backend services using Laravel.
- Set up Laravel applications from the ground up, including role-based access control (RBAC), management modules, REST APIs, and business-specific features.
- Develop modular frontend applications and integrate backend services based on internal business requirements.
- Collaborate with product, backend, and infrastructure teams to deliver applications for deployment across company-specific environments.

PT Radya Gita Bahagi (Front End Developer · Freelance · May 2023 – Oct 2024)

- Develop frontend functionality and reusable components for dynamic web projects using Next.js and Nuxt.js.
- Improve code quality, responsive behavior, cross-browser compatibility, and frontend performance.
- Apply clean-code practices to support maintainability and long-term project development.

Peduly (Full Stack Developer · Internship · Nov 2020 – Apr 2021)

- Develop full-stack functionality for a web-based donation platform using Laravel.

SELECTED PROJECT

ASPRIKU

AI-assisted web application built with a production-oriented workflow, exploring AI-assisted UI implementation, development, testing, and refinement.

HEADWAY PLATFORM

Development and maintenance assessment platform across Headwaytest.com, Center.headwaytest.com, Fellowship.headwaytest, and Partnership.headwaytest.com.

EIGER ADVENTURE

Frontend maintenance and CMS-related development for eigeradventure.com

MODUIT

Frontend maintenance and optimization for moduit.id.

EMINA COLAB

Interactive user experience development for eminacolab.com.

TECHNICAL SKILLS

- Front-End : Vue.js, Nuxt.js, React.js, Next.js, JavaScript, TypeScript, HTML, CSS
- Mobile & Desktop : Ionic, Flutter, Android Native (Java/Kotlin)
- Backend & APIs : Laravel, PHP, REST API Integration, ASP .Net
- Styling & UI : Tailwind, Bootstrap, Vuetify, Maintine, Responsive Web, GSAP
- Engineering : GIT, OOP, E2E Testing, AI-Assisten Development

EDUCATION

- Universitas Negeri Surabaya — SI Teknik Informatika · 2025
- SMKN 1 Kota Blitar — Teknik Komputer dan Jaringan · 2019
